Atty. Dkt. No. 040373-0392

IAP5 Rec'd PCT/PTO 23 JUN 2006

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Shuya KISHIMOTO, et al.  
Title: RADIO COMMUNICATIONS APPARATUS  
Appl. No.: Unassigned  
International Filing Date: 12/03/2004  
371(c) Date: 06/23/2006  
Examiner: Unassigned  
Art Unit: Unassigned

**INFORMATION DISCLOSURE STATEMENT**  
**UNDER 37 CFR §1.56**

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicants in order to comply with Applicants' duty of disclosure pursuant to 37 CFR §1.56.

A copy of each non-U.S. patent document and each non-patent document is being submitted to comply with the provisions of 37 CFR §1.97 and §1.98.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicants do not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

IAP5 Rec'd PCT/PTO 23 JUN 2006  
TIMING OF THE DISCLOSURE

The listed documents are being submitted in compliance with 37 CFR §1.97(b), within three (3) months of the date of entry of the national stage as set forth in 37 CFR §1.491.

RELEVANCE OF EACH DOCUMENT

Document A1 is a U.S. counterpart of Document A5.

Document A2 is a U.S. counterpart of Document A7.

Document A3 is a U.S. counterpart of Document A9.

Document A4 relates to a mixer circuit which is suitable to be used for a self-heterodyne communication scheme to obtain a local oscillation signal and an RF signal of the same degree with great power.

The relevance of Documents A5, A6 and A8, listed on the attached PTO/SB/08, were cited as being relevant during the prosecution of the corresponding International application. A copy of the International Search Report is attached setting forth the portion of each document considered relevant by the examiner. An English translation of the foreign-language documents is not readily available; however, the absence of such a translation does not relieve the PTO from its duty to consider any submitted document (37 CFR §1.98 and MPEP §609). English language abstracts are attached.

The relevance of Documents A7 and A13 is described in the present specification.

Document A9 relates to a modulation system conversion circuit and optical signal transmitter in which a frequency band is made broad and a signal with high quality and small noise is transmitted.

10/584241

Atty. Dkt. No. 040373-0392

IAP5 Rec'd PCT/PTO 23 JUN 2006

Document A10 relates to an adaptive modulation type transmitter/receiver for TDD to adopt a propagation line condition estimating system with which the frame efficiency of information is adversely affected and the circuit scale of a reception equipment part is not expanded.

Document A11 relates to an image suppression mixer circuit in which deterioration in an image suppression ratio due to a phase error of an element is corrected and a sufficient image suppression ration is obtained over a wide band by compensating a frequency characteristic of the element.

Document A12 relates to a frequency converter for simultaneously providing the suppression of local power leak and the suppression of an image frequency signal.

Applicants respectfully request that each listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

Although Applicant believes that no fee is required for this Request, the Commissioner is hereby authorized to charge any additional fees which may be required for this Request to Deposit Account No. 19-0741.

Respectfully submitted,

Date: June 23, 2006
